

Þarf alltaf að vera þessi
helvítis hávaði?

Hvað er hávaði?

- Hljóð er bylgjuhreyfing í lofti. Eðlisfræðilega er enginn munur á hávaða og hljóði, en frá sálrænu sjónarhorni er hljóð upplifun. Hávaði er skilgreindur sem óæskilegt eða skaðlegt hljóð.

Hvenær er of hátt?

- Er of hátt þegar yfirvaldið segir okkur það...85db, 98db, 110db?
- Þegar nágranninn kvartar
- Þú ert timbraður og færð hausverk?
- Þú ert bara of gömul/gamall!
- Þú finnur til sársauka í eyrunum.
- Þú upplifir tón eða suð tímabundið.
- Þú upplifir tímabundna heyrnarskerðingu.

Continuous dB

Permissible Exposure Time

85 dB	8 Hours
88 dB	4 hours
91 dB	2 hours
94 dB	1 hour
97 dB	30 minutes
100 dB	15 minutes
103 dB	7.5 minutes
106 dB	3.75 minutes (< 4 min)
109 dB	1.875 minutes (< 2 min)
112 dB	.9375 min (~ 1 min)
115 dB	.46875 min (~ 30 sec)

En afhverju er ekki bara hægt að lækka?

Listræn ákvörðun.

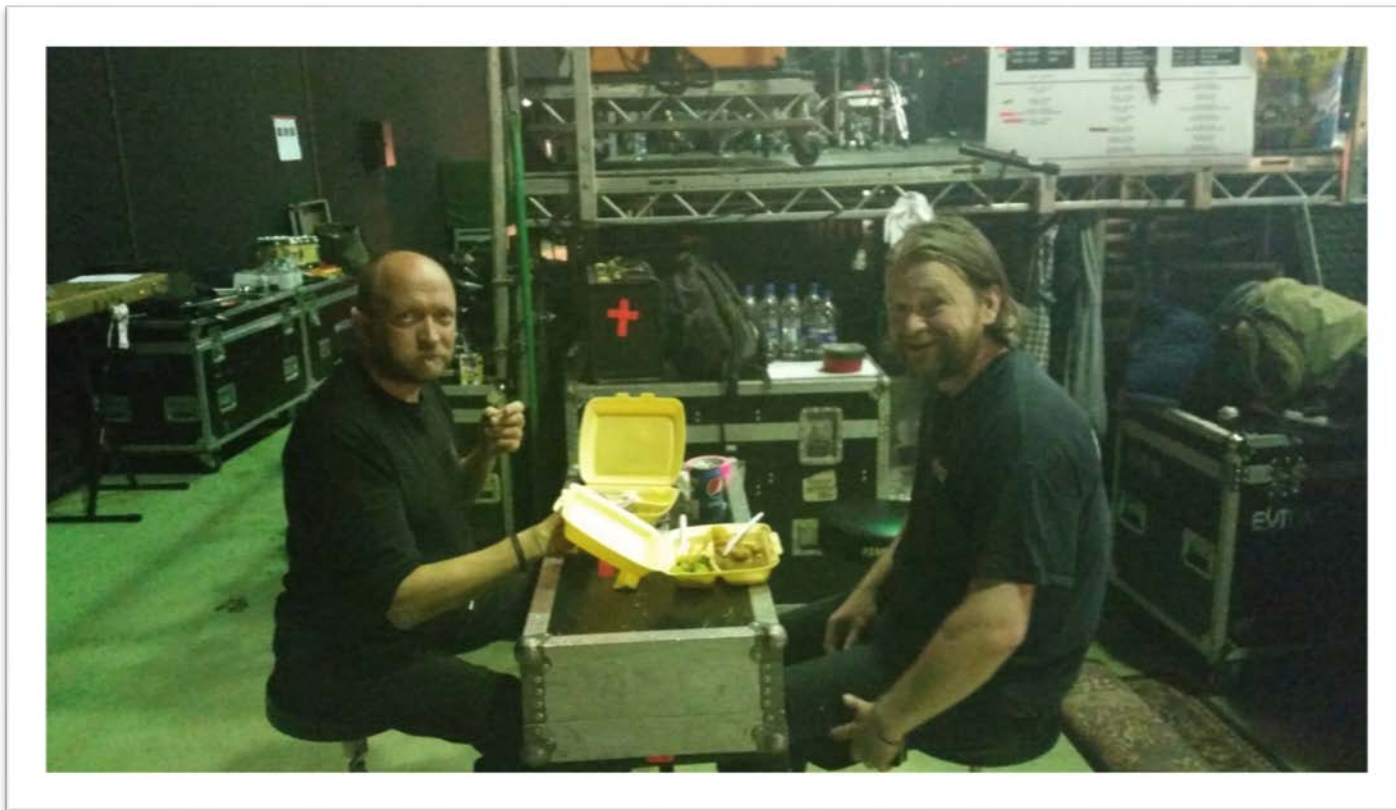

Áhorfendur krefjast þess að það sé „hátt“!
Það er hluti af upplifuninni og „sefjunini“.

Rýmið er lifandi, mikill endurómur, eða erfiðir endurvarpsfletir.

Heilsa, hvíld, álag hefur áhrif á skynjunina.

STAGE VOLUME and VENUE VOLUME RESTRICTIONS

Please note that [REDACTED] are EXTREMELY LOUD -- their stage volume alone (without the PA on) can be upwards of 115 dB at FOH. [REDACTED] **will not adhere to any venue or municipal dB limits.** Our FOH engineer is a courteous, respectful guy who will not endanger your PA system, however, any attempts to curtail the band's stage volume will not be tolerated.

It is HIGHLY recommended that ALL venue staff be given ear plugs or other hearing protection. It would also be a humanitarian gesture to make ear plugs available to the audience members.

It is not our goal to blow anything (ears, your PA system) up, but volume is an integral part to the visceral experience that is a [REDACTED] performance. Please make sure you and your venue staff understand this before you book a show for [REDACTED]

Sound Restrictions:

As the purchaser of this show, you probably already know that the sound levels produced by our group will be outside the normal range of most bands. If you didn't know that, then please go online and read a few reviews to get an idea of what the show is all about. Google the words [REDACTED] and "loud" together, for example.

We have agreed to play your venue because you have guaranteed that there are no sound level restrictions. If this is not the case, please contact [REDACTED] or [REDACTED] immediately.

Earplugs:

It is imperative to place a free pair of earplugs in the hands of each patron to our shows. We will be bringing and providing these. They should be distributed at the point of entry where tickets are taken and handed out by your staff – one pair per patron. If this is in conflict with any merchandiser deal or earplugs sold at your venue, please let us know as part of the advance.

LA rock concert ends in riot

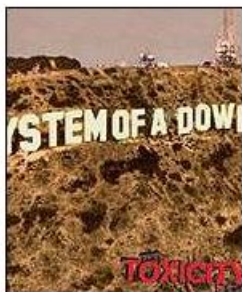

\$30,000 of equipment was damaged or stolen

Police used tear gas and rubber bullets after fans of American rock band System of a Down went on the rampage when a concert was cancelled at the last minute.

Up to 10,000 people were thought to have turned up to the free 3,500-capacity show, held in a Los Angeles parking lot.

Six fans were arrested and police and crowd members were treated for minor injuries when fans rioted after fire officers called the performance off because the crowd was too big.

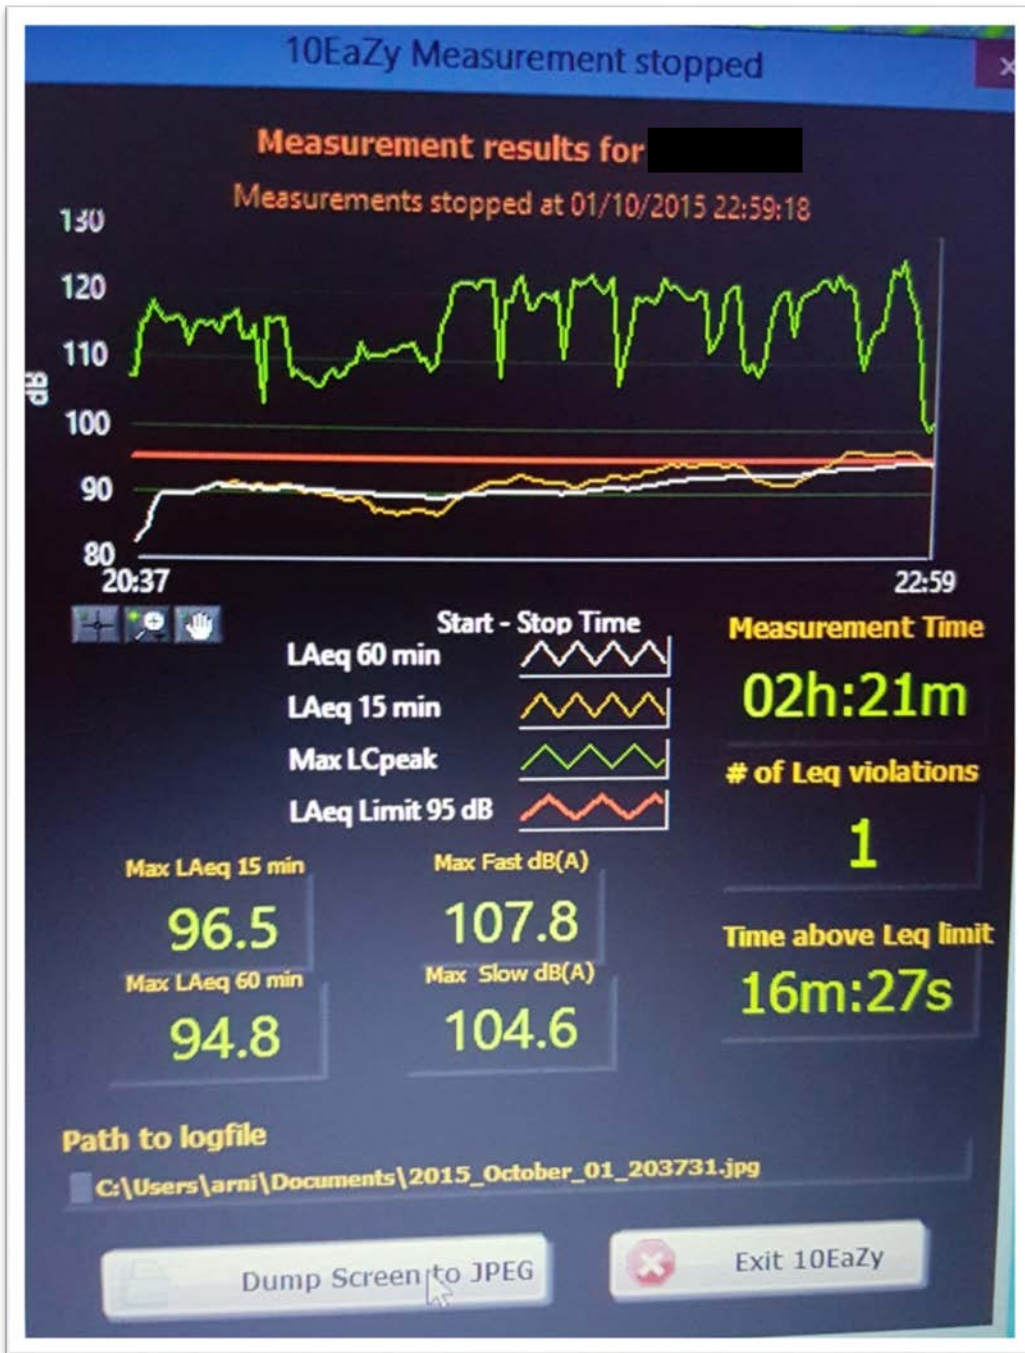

The band have just released their second album

Angry fans rushed the stage and toppled speaker stacks before throwing missiles at police and breaking windows when the show was cancelled on Monday.
